

FLOORING SOLUTIONS

POLISHED
CONCRETE

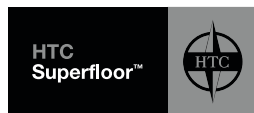

SURFACES FOR ALL PURPOSES

TRUST IN OUR KNOWLEDGE AND EXPERTISE TO DELIVER THE HIGHEST QUALITY POLISHED CONCRETE FLOOR

As one of the UK's leading installers of world-class surface solutions, we have the knowledge and expertise to advise you on every aspect of your concrete floor.

We are authorised specifiers and installers of HTC Superfloor, SIG and CDF colour dye and stain protection systems. Our Polished Concrete solutions are installed in a wide variety of applications including car showrooms, warehouses, manufacturing and assembly facilities, offices, eateries, shopping malls, bakeries and designer homes.

Installers of:

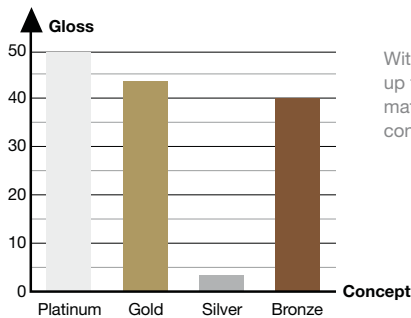

Choosing a polished concrete floor by TPS Flooring Solutions provides you with the assurance that you are enjoying the technical benefits of a HTC Superfloor and the versatility and protection of SIG colour dyes and stain protection systems.

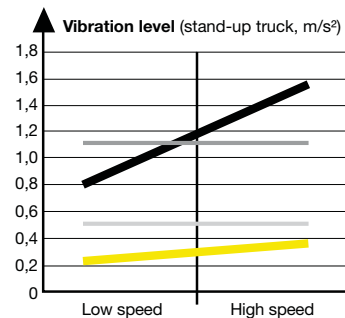

Economical, environmentally friendly, easy to clean and unbeatably durable: TPS Flooring Solutions' polished concrete can benefit a wide range of industrial, commercial and domestic applications. Using the latest diamond grinding and polishing technology with innovative colour dyes and protectors applied by our highly skilled installers, TPS Flooring Solutions is working with some of the leading names in business to deliver the highest quality polished concrete solutions.

Choose a smarter floor

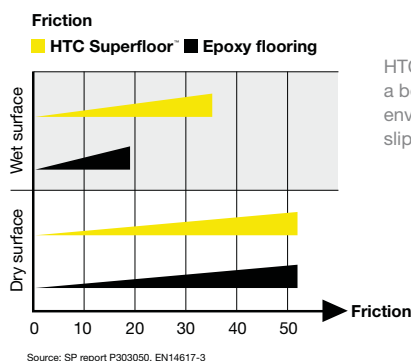

With HTC Superfloor™ it is up to you how glossy or matt you want your concrete floor to be.

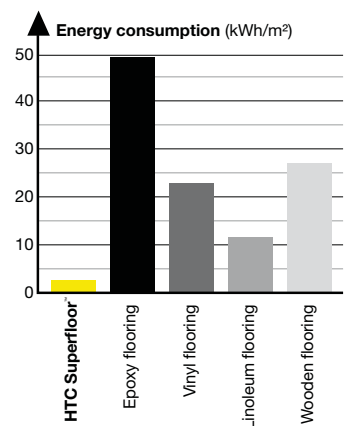

Machinery and vehicles produce a minimum of vibration because the floor surface is completely smooth.

Measurements performed by CVK AB, 23 Aug. 2007
Performance and limit in conformance with the AFS 2005:15 provisions and general recommendations of the Swedish Work Environment Authority.

HTC Superfloor™ gives you a better and safer work environment. It is extremely slip-proof, even when wet.

Not only is it economically advantageous to reduce energy consumption, it is environmentally beneficial too.

Source: "Life Cycle Assessment of Industrial Flooring", LITH-IKP-EX-06/2383-SE

- Cost effective
- Aesthetically appealing
- Environmentally friendly
- Can be coloured without losing its qualities
- Slip-proof, even when the floor is wet
- Highest fire-safety class
- Easy to clean. No truck marks, etc.
- Well within the range for the international IEC 61340-5-1 standard and the American ANSI/ESD S20.20-1999 standard for ESD values
- Infinite lifespan with Twister maintenance
- Just as good for new installations as for floor renovations
- 60% lower life cycle cost than traditional flooring solutions
- Lower vibration level for vehicles
- Tests for abrasion resistance according to SS and prEN standards, rebound values and slip resistance produce results that conform with one another. All the results according to SS 13 72 41 are well below the specified limits (>K50) after 1600 revs.
